

As of now we're looking for 5 Projects as per mentioned amount in this gig, from a developer who willing to work with us for long time after this Projects will decide You to hire for monthly or long term basis.

Our Workflow is fundamental required such as Wordpress Theme Installation, perform work as per given documentation in note file with attachement, and Customization when its required, and before assigning Each projects. And you must have experience in any of page builders of wordpress to execute website designing part of work for few projects.

From our side you will get few original contents for example, texts, pages information, images etc. if data will not present with us. We will let you know then you can use your resources or internet to get it from.

We will give you Each of Workflow documentation, Theme documentation, plugins and wp details to perform work in zip file or notes or document file, for better If You present with You and have good expertise in that you can ask us during work and We will also share you Contents along with workflow during work or before work.

Note: I don't need any **qualification** or **certificate** to execute this work. Looking for a honest developer who can be as junior/senior WordPress developer and this are following skills required

****Honest and Full Transparency for Project we've assigned.**

- 1) Excellent knowledge in WordPress. 2)
- 2) Themes Installation.
- 3) Work as per given task
- 4) Theme customization when it is required
- 5) Page builder experienced (Elementor, wpbakery or any of other visual).
- 6) Good Creativity.
- 7) 3hrs Daily

This will gives you advantages for while working with us.

- Graphics Desinger
- Solution Finder
- Always ready to accept big challenges
- Not to lies
- Trustworthy

- Patience about work
- Fast with effective works delivery

Remark: Looking for a Honest and Individual person who will consider this Project is their own project not our work.

Thanks,
